

*Table of serum protein biomarkers*

Biomarker	Year of availability on US market	Sensitivity	Specificity	Clinical Use
<b>CA125<sup>18</sup></b>	1997	79%* 69%**	82%* 93%**	Monitoring disease progression, detection of residual or recurrent OC
<b>HE4<sup>19</sup></b>	2008	47%	84%	Monitoring recurrence or progressive disease

CA125 cutoff value: \*65 U/mL; \*\*150 U/mL

HE4 cutoff value: 20% change in CV
